

18 to 25

Hi,

We have a exciting new service

Free Digital Skills programme

Caudwell Children are offering an opportunity for young people with autism to join our 'Digital Skills' ten (10) week programme that is aimed at upskilling and introducing you to the world of work within the digital industry.

Free 10 week full time digital skills training course

Digital skills Workshops

Employability & Life skill workshops

Work experience in a high quality digital industry placement

6 months post programme support to ensure sustainability

Within this ten week programme a set pathway will be designed aimed at each individual learner's requirement and needs, with the desired end outcome being employability.

As long as you fulfil the below criteria:

ASD/Autism Spectrum Disorder

Ages 18 -25

Living at a WMCA (West Midland Combined Authority) post code

If you think you may have autism, and a social worker, healthcare professional or education professional agrees, and you have never been assessed for autism we may be able to assist, please contact me for further details.

While the challenges of employment are huge, so are the rewards. If you're interested or just want further information, either contact us or join one of our free webinar sessions complete with a Q&A:
